CHAPTER 1

Introduction

Industrial Training is designed as a platform for students (or interns) to adapt to the work environment. Industrial Training is also intended for students to apply what they have learned. Recognising the importance of Industrial Training, School of Multimedia Technology and Communication (SMMTC), College of Arts and Sciences (CAS), Universiti Utara Malaysia (UUM), provides the opportunities for students of all programmes to undergo Industrial Training.

Industrial Training is one of the compulsory courses for all SMMTC students to fulfil the conferment of

- Bachelor of Communication with Honours – B. Comm. (Hons)
- Bachelor of Media Technology with Honours – B. Media Tech. (Hons)
- Bachelor of Science with Honours (Multimedia) – BSc. (Hons) MM

A. GENERAL INFORMATION

1.1 Industrial Training Objectives

Industrial Training is implemented to meet the following objectives:

i. to expose the interns to the real working environment before graduating.
ii. to provide opportunities for interns to relate the theoretical and practical understanding through industrial training programmes in organisations where interns are placed.
iii. to provide opportunities for private organisations, statutory bodies, government departments and non-governmental organisations to transfer experience and expertise to interns working towards the creation of professional human resources.
iv. to establish and strengthen bilateral relations between UUM and the organisation or firm involved in the industrial training programme for mutual benefit.

1.2 Industrial Training Regulations

During Industrial Training, intern is subjected to UUM regulations. The following are the main matters to be aware of:

a) Confirmation of Industrial Training

Student needs to confirm his/her report duty status at the organisation by returning the Report Duty form[1] to the office of CUIC. Student is also required to inform his/her supervisor regarding the aforementioned status.

Please refer "Item 5.0 Regulations for UUM Industrial Training Programme" for more information.

b) Postponement of Industrial Training

Postponement of Industrial Training is not allowed except for student who has serious health issues.

Please refer "Item 7.0 Regulations for UUM Industrial Training Programme" for more information.

c) Report Preparation

In preparing report, student is subjected to Act and Regulations of Academic Treachery from paragraph 12 UUM Act (Examination) 1988. Academic treachery includes any acts that break any examination rules and plagiarizing project paper, academic practice, or any assignments and courses. If found guilty, Students Discipline Body can execute one or more of the following punishments:

Warning.
Fine not more than RM200.00.
Suspension from any or all University's facilities in a certain decided period of time.
Exclusion from any parts of University in a certain decided period of time.
Expulsion from University.

d) Incomplete Grade (*Tidak Lengkap* - TL)

Incomplete Grade (*Tidak Lengkap - TL*) can be applied by student if he/she has not completed any specific components such as the final report. This application needs to be submitted to the Director of CUIC through the Report Supervisor (SMMTC).

Please refer "Item 12.0 Regulations for UUM Industrial Training Programme" for more information.

[1] Downloadable at http://cuic.uum.edu.my/

e) Disciplines during Industrial Training

Student whose internship has been terminated due disciplinary issues as confirmed by the supervisor is entitled to get F grade.

Please refer "Item 16.5 Regulations for UUM Industrial Training Programme" for more information.

1.3 Other Industrial Training Information

Other information about Industrial Training can also be obtained from the Centre for University Industry Collaboration (CUIC) website (**http://cuic.uum.edu.my**)

1.4 Supervision and Visitation to Organisation

The purpose of Industrial Training supervision is to ensure the student is given proper tasks based on his/her industrial training project/research scope. The supervision is conducted by:

1) Report Supervisor (SMMTC)
2) Organisational Supervisor (Employer)
3) Visiting Supervisor (UUM)

Report Supervisor play the role of supervising and monitoring student's tasks starting from the date they register at the organisation until the end of the Industrial Training. The particular Report Supervisor will consult the student from the stage of writing the proposal to the stage of checking the final report. Meanwhile, the Visiting Supervisor act as the link between UUM and organisation in order to establish good relationship and future cooperation. Visiting Supervisor may be the same with the Report Supervisor or different based on the appointment by CUIC.

The following is the list of actions that must be taken by all students and supervisors (students are advised to kindly remind the supervisors regarding actions that must be taken).

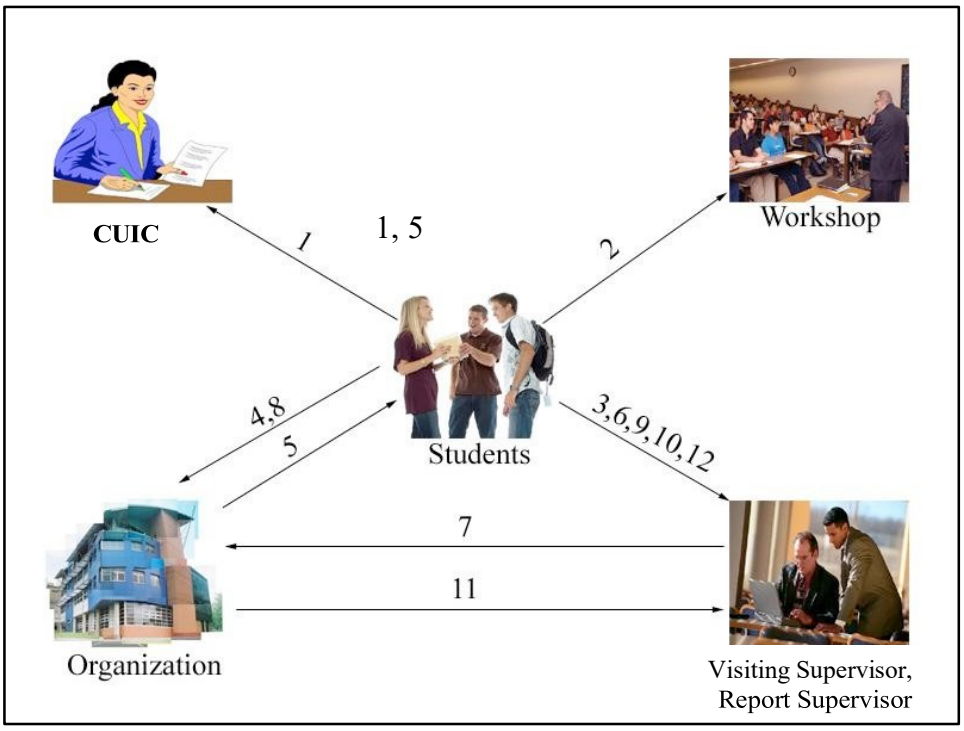

Entity	Actions
Student	a) Submit a proposal to Report Supervisor. b) Present the project to Organisational Supervisor and Report Supervisor. c) Prepare the related forms for Organisational Supervisor and Report Supervisor. d) Submit logbook, report draft, CD and final report to Report Supervisor. e) Remind the Organisational Supervisor to complete the Employer Confidential Report to be submitted to the Report Supervisor. f) Submit the attendance form to the Report Supervisor.
Report Supervisor (UUM CAS)	a) Responsible for the student's supervision during the entire Industrial Training duration. b) The main link between UUM CAS and Organisational Supervisor. c) Monitor student's work performance. d) Monitor student's project progress. e) Evaluate student's performance and project using the Report Supervisor Evaluation Form.
Visiting Supervisor (UUM)	a) Act as the link between UUM and organisation in order to ensure good relationship and future cooperation. b) Observe the suitability of the organisation for Industrial Training placement. c) For students of B.Comm. (Hons) and B.Media Tech. (Hons), the Visiting Supervisor is also responsible to evaluate them during the industrial training visit/ telephone call[2].
Organisational Supervisor (Employer)	a) Assign suitable project to the intern and supervise the intern throughout the industrial training period. b) Review the logbook and attendance. c) Evaluate project presentation[3]. d) Submit the Employer Confidential Report to the respective Report Supervisor (SMMTC).

[2]Not applicable to BSc. (Hons) MM.

[3]Only applicable to BSc. (Hons) MM.

1.5 Main Activities of Industrial Training

The diagram below shows the main activities of Industrial Training.

Legend:

1: Register
2: Attend
3: Meet
4: Report at organisation
5: Confirm registration at organisation
6: Submit proposal
7: Visit
8: Present to Organisational Supervisor
9: Present to Report Supervisor
10: Submit report draft
11: Submit Employer Confidential Report, logbook & attendance sheet
12: Submit CD and Final report

Industrial Training activities and phases are as follows:

Phase	Items	Action by	Notes
Before Industrial Training	1) Student registers at CUIC	Student	Eligible student must be alert of the importance dates
	2) Student attends Industrial Training workshop (CUIC & SMMTC)	Student	Compulsory for registered intern
	3) Student is assigned to the Report Supervisor (SMMTC)	CUIC	Check portal/ announcement
	4) Student meets the Report Supervisor (SMMTC) and provide the **Report Supervisor Evaluation Form** to their respective lecturer.	Student	
During the Indsutrial Training	5) Student registers at the organisation	Student	Day 1
	6) Student submits confirmation of registration form (i.e., **Report Duty Form**) to CUIC office	Student	Week 2
	7) Student reports the organisation environment to the Report Supervisor	Student	Week 1
	8) Student discusses the project with Organisational Supervisor	Student	Week 1
	9) Student submits the **proposal** to Report Supervisor	Student	Week 2
	10) Student starts the project/research	Student	Week 4
	11) Student reports the project/research progress	Student	Fortnightly
	12) Visiting Supervisor (UUM) arranges a date for visitation/ telephone interview with the organisational supervisor	Visiting Supervisor	
	13) Visiting Supervisor (UUM) visits the organisation/ conduct a telephone interview with organisational supervisor	Visiting Supervisor	At least 2 weeks before the industrial training ends

	14) Students submit the **draft of the report.**	Student	A month before Industrial Training ends
	15) Report Supervisor (SMMTC) checks the draft report and gives feedback to student	Report Supervisor	Two weeks after student submission

After Industrial Training	16) Organisational Supervisor submits **Employer Confidential Report** to Report Supervisor (SMMTC)	Organisational Supervisor	One week after Industrial Training ends
	17) Student confirms that Employer Confidential Report has been accepted by the Report Supervisor	Student	
	18) Student **presents practicum finding** in front of the insustrial traning committee and his/her Report Supervisor during a seminar *(compulsory for BSc. (Hons) MM, optional for*	Student	Within 2 weeks after the industrial training ends
	19) Student submits a revised **final report** and **CD, logbook** and **attendance sheet** to Report Supervisor	Student	Two weeks after Industrial Training ends
	20) Report Supervisor completes **Report Supervisor Evaluation Form** and **Practicum Scoring Form**, and key-in the complete marks in the Practicum System	Report Supervisor	Two – three weeks after student's submission

B. INFORMATION BY PROGRAMME

1.6 BACHELOR OF MEDIA TECHNOLOGY WITH HONOURS

The Industrial Training course code for B.Media Tech. (Hons) is **SCTX3908** with credit value equivalent to **8 credits**. Students have to fulfil **16 weeks (4 months)** of Industrial Training at the chosen organisation. B.Media Tech. (Hons) students are eligible to undergo Industrial Training course after accumulating at least 115 credit hours (i.e., on the 6th semester).

B.Media Tech. (Hons) programme gives students the opportunity to pursue Industrial Training in organisations compatible with their specialisation areas, so that students are able to obtain the maximum possible benefit. Normally agency/organisation that is suitable for student's placement is in accordance with the following areas:

i. Advertising - advertising agencies, media agencies, consumer rating agencies, advertising production companies, and the advertising clients.
ii. Journalism - media agencies such as newspapers, magazines, television, online.
iii. Broadcasting - RTM, Media Prima, production companies

However, in certain circumstances, students may be placed in the agencies/ organisations that are not related to their specialisation areas. In such cases, the student can still undertake projects/analysis based on the knowledge and skills they have learned during their study.

1.6.1 Objective(s) of the Course

Upon completion of the course, students are expected to:

i. develop soft skills in the context of mass media
ii. relate knowledge and organisational structure in terms of media production

iii. apply theoretical knowledge and practical techniques in mass communication using contemporary technology
iv. study the impact of media technology in achieving organisational aims

1.6.2 Assessment Forms

Follow the same guideline and content as described in Section 1.6.2.

1.6.3 Evaluation Components

Follow the same guideline and content as described in Section 1.6.3.

CHAPTER 2

Industrial Training Scope

A. GENERAL INFORMATION

In general, students are allowed to do any projects related to their respective programmes. However, the project has to be proposed by the student and approved by the Report Supervisor (SMMTC). The Report Supervisor can discuss the project with Organisational Supervisor (Employer) to determine its appropriate scope.

B. INFORMATION BY PROGRAMME

2.1 BACHELOR OF MEDIA TECHNOLOGY WITH HONOURS

2.1.1 Scope of Research/Report

Students must select and define the scope of project to be implemented during the discussion with the Report Supervisors (SMMTC). Selected scope must be adapted to the nature of the organisation where the students do their Industrial Training.

Project scope is crucial to facilitate the students in getting the needed information for the project that they want to do. The scope of the project or analysis should include items related to the field of Media Technology.

The scope of the project or analysis should include items related to the sub-field of Media Technology:

Advertising
Broadcasting
Journalism
Or other appropriate sub-fields

CHAPTER 3

Proposal Writing

A. GENERAL INFORMATION

A proposal is produced by the student to explain about future project in the organisation. However, the requirement of the report proposal is based on the programme and Report Supervisor. Student needs to confirm this requirement with the Report Supervisor. The proposal should be submitted to the Report Supervisor (SMMTC) **TWO (2)** weeks after the students registered at the organisation. The proposal must be clear, concise, neat and written in either English or Bahasa Malaysia. The maximum number of pages is **10** excluding appendices. The information on the front and last page of the proposal is as shown in Appendix A and B respectively. Student needs to discuss with the Report Supervisor (SMMTC) and Organisational Supervisor (Employer) to determine appropriate project. The project scope must be agreed by both supervisors. The proposal should be signed by the student and approved by the Organisational Supervisor (Refer Appendix B). Please refer to Chapter 6 for the format of the proposal.

B. INFORMATION BY PROGRAMME

3.1 BACHELOR OF MEDIA TECHNOLOGY WITH HONOURS

3.1.1 Proposal Contents

Every student undergoing Industrial Training is required to produce a written proposal within TWO (2) weeks of its commencement. Proposal components are as follows:

i. Introduction
ii. Organisational background
iii. Goals and objectives of internship
iv. Description of job scopes
v. Summary

vi. References (using APA style)
vii. Appendix (if any)

To meet this goal, students are asked to discuss with the Report Supervisor (SMMTC) on the scope of the project.

CHAPTER 4

Logbook Writing

A. GENERAL INFORMATION

4.1 Logbook Requirements

During Industrial Training, intern is required to record his/her daily activities at the organisation. Intern is advised to always keep the record updated daily. Logbook must be endorsed by the Organisational Supervisor by signing each sheet of the book.

For B.Comm. (Hons) and B.MediaTech. (Hons) interns, the logbook will be reviewed by the Visiting Supervisor (UUM) during the Industrial Training visit. Hence, students need to prepare their logbook during the visits.

Logbook must be filled each day by the students. The purposes of writing a logbook are to:

i. facilitate the students to reflect on the activities that have been carried out
ii. enable the students to learn and improve their performance based on their given tasks in the organisation
iii. enable supervisors to monitor the student's learning activities and to advise him/her whenever necessary

Among the things that need to be recorded in the logbook are:

i. Date, day and time of the activities - it should be clearly stated and in correct sequence.
ii. Location, type and purpose of the activity.
iii. Personnel who deal with the students- whether from the organisation or client.
iv. Organisational Supervisor (Employer) remarks on the reported activities.

4.2 Sample of Logbook Writing

Day/Date: Monday, June 16, 2012: 8:00am to5:00pm

Venue: Section News, Malaysian National News Agency (BERNAMA)
Activities:

In the office- Reviewing the list of event/news coverage to be attended. Obtain assignments and details information on form news coverage that is required by chief journalist/editor. Discuss with the photographer on assignment and type of photographs/pictures required.

At assigned locations- Obtain information about the event/press conference attended. Interviewed clients.

At the office: Write news about the event/press conference and submit articles and related photos to the chief journalist for review. News that has been revised will be sent to the sub editor, for editing process. Help editor to improve and provide additional information related to news content if necessary.

Customer: Source news from all walks of life.

Note: Customers helped to obtain the necessary information.

Additional notes:
The preparation of logbook must be in sequence and not only depends on the day, but maybe if the day student is required to be in a separate unit, it should be recorded in the unit's activities.

4.3 Additional Information

i. Logbook's template can be downloaded from CUIC website.
ii. **Students are required to submit hardcopy of logbook for Organisational Supervisor endorsement preferably on a daily basis, or at the end of each week.**
iii. Students have to ensure the activities recorded in the logbook are written neatly.

CHAPTER 5

Final Report Writing

A. GENERAL INFORMATION

The Industrial Training final report is one of the required components. The report must follow the defined specifications. The report must be prepared by the student based on his/her project/research and experience during Industrial Training. The report will be evaluated by the Report Supervisor (SMMTC). Student who fail to submit the final report within the timeframe will be given **Incomplete Grade** (***TL***). Any application for TL grade must get the Report Supervisor's approval. After 8 weeks, student will be given **F** grade if he/she fails to submit the final report (please refer to general Industrial Training regulation for TL grade).

B. INFORMATION BY PROGRAMME

5.1 BACHELOR OF MEDIA TECHNOLOGY WITH HONOURS

Follow the same guideline and contents as explained in Section 5.1 above EXCEPT for the following:

Chapter 3: Aspects/Issues of Study

Among related media technology issues are broadcasting, journalism and advertising. For instance, students can conduct research on the factors that influence the career path of producer of radio stations, journalists or advertisers. Students may apply qualitative method such as interviewing the relevant staff in the organisation in order to obtain data which will subsequently able to answer the research questions and objectives of the study.

CHAPTER 6

Proposal & Final Report Format

A. GENERAL INFORMATION

Industrial Training proposal and final report must be prepared and typed clearly. Writing format for both proposal and final report must be standardised based on the format given.

6.1 Font Type and Size

Use *Times New Roman*. Specifications include:

i. Font size 12 for the text including the main topics. The main topics must be written in uppercase (capital letter) and should be bold.
ii. The font size for subtopics is also 12. Write the subtopics in title case and bold.

Example:

1.0 MAIN TOPIC

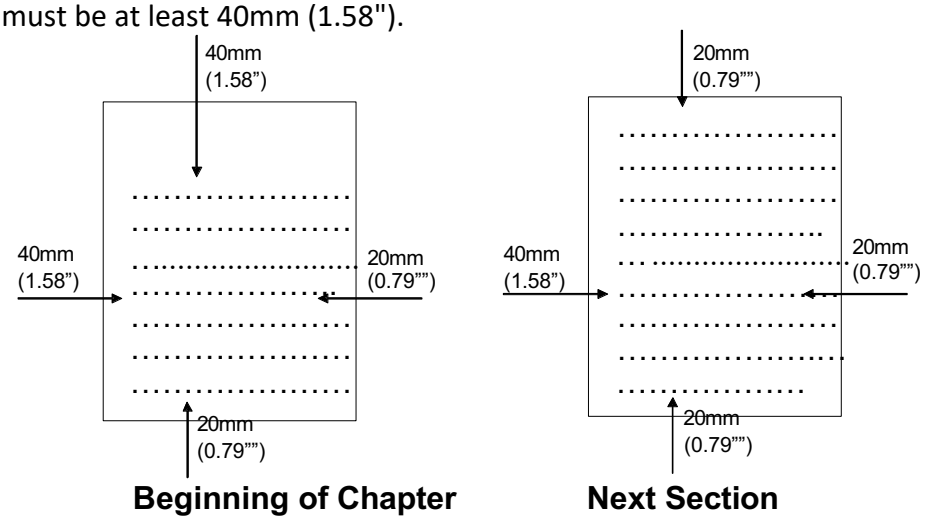

1.1 Subtopic

1.1.1 More Sub-subtopics

iii. Font size for captions on tables and figures is 10.
iv. Use word processor that can give you a standard typing format.
v. The usage of headers and footers is not allowed.

6.2 Margin

Margin on the left hand side of the report is 40mm (1.58") and 20mm (0.79") on the right, top and bottom side; except for the beginning of the chapter, where the top margin must be at least 40mm (1.58").

6.3 Heading and Subheading

Use a consistent numbering format (refer to the example below). The position of the subtopics must align with the main topics (no indentation is needed).

Example:

1.0 MAIN TOPIC	… Level 1
1.1 Subtopic for 1.0	… Level 2
1.1.1 Proportion of Subtopic 1.1	… Level 3
a) Proportion for 1.1.1	… Level 4
i) Proportion for a)	… Level 5

Note: Please refer to the Technical Report Writing text book or any academic writing books.

6.4 Spacing

Proposal must be typed in single spacing, whereas the final report must be typed in 1.5 spacing. The main section (chapter) must begin on a new page.

The following item must be typed in single spacing in the final report:

i. Foot note
ii. Quotation that exceeds three lines
iii. References
iv. Table
v. Appendices, e.g. questionnaires, letters, etc.

6.5 Paging

i. Page numbers must be continuously counted. It should be without any brackets, hyphens or other decorations.

ii. Page number before the first chapter of the report must be written using small Roman numbers. No numbering is needed for the Title Page.

iii. The page numbering starts from the first page of the first chapter of the report.

6.6 Table and Figure

Tables should be labelled in sequence according to the chapter/section in the report and written in title case. The caption for a table is written at the top of the table. The format is as follows:

Table <Chap>.<Table No>:<Name/Table Topic>

Example:

Table 5.1: Tabulation of Computer Users in Malaysia"s Northern States

	Perlis	Kedah	Penang
1995	1000	1200	2971
1996	1500	1800	3654
1997	1572	1890	3985
1998	1602	1906	4576
1999	1680	1950	4867
2000	1750	2103	6514
2001	1890	2500	7514
2002	1990	2530	8245
2003	2504	2641	9987

Based on the above example, the caption for the table begins with "**Table 5.1**" which shows that the table is the **first** table in Chapter **5**.

The same goes for figures except that the caption for a figure is written at the bottom of the figure. The format is as follows:

Figure <Chap>.<Figure No>:<Name/Figure Topic>

Example:

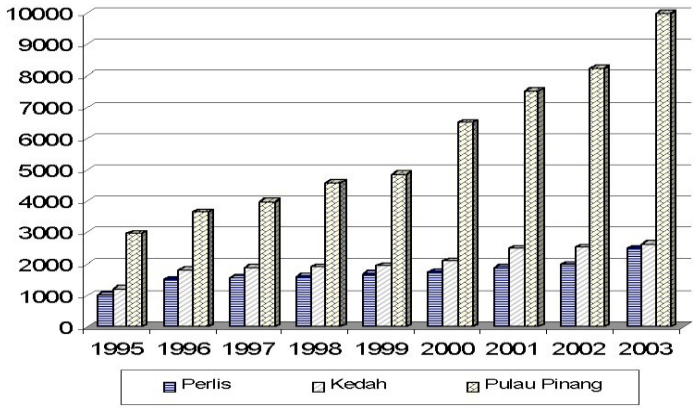

Figure 1.2: Availability of Computers in Malaysia"s Northern States

Based on the above example, the caption for the figure begins with "**Figure 1.2**" which shows that the figure is the **second** figure in Chapter **1**.

CHAPTER 7

Reference Format and Style

A. GENERAL INFORMATION

All references must be relevant, cited and placed after the **final chapter of the report**. Each reference must be consistent and follow the writing practices procedures below:

Each entry must start at the left margin with the second line indented four spaces and in single spacing (refer example).

If there are more than two works by one author, the repetition name can be avoided by replacing with continuous line throughout 8 column (space) start at left margin.

If the author is unknown, the entries are arranged according alphabetically (excluding “The”,”A” and others).

7.1 Citation in the Text

Entries in the reference should follow one of the following formats:

IEEE/ACM format (http://standards.ieee.org/guides/style/) **for BSc. (Hons) MM OR**
APA format (http://www.apastyle.org/) **for any programme**

7.2 IEEE/ACM Format

In IEEE/ACM format, citing the reference is made by refering its referred number. Each of the relevant reference must be enclosed in square bracket, e.g. [1] or [25], positioned at the same line in the text, with a space before the bracket. Each number must correspond to the numbered reference containing publication information about the source cited. Once a source has been cited, the same number is used in all subsequent references.

Examples of the citation are as follow: "...seperti dalam kajian [13]."
"This theory was first put forward in 2008 [1]."
"John [12] has argued that....."
"Several recent studies [3, 4, 15, 16] have suggested that..."
“A few researchers *1+-[5] basically agreed that …”
"For example, see [7]."

If citing more than one source at a time, list each reference number separately with a comma or dash. For example:

[1], [3], [5]	or	[1, 3, 5]
[1] - [5]	or	[1-5]

List of reference must be provided at the end of the report based on the order of citation used in the text, not in alphabetical order. **One reference number is for one reference**.

The reference format is based on different types of references. The examples of IEEE/ACM style format are as follows:

1. Printed Documents

General format:
[#]Author/editor, A. A., *Title: Subtitle* (in *italics*)**, Edition** (if not the first)**, Vol.**(if a multivolume work)**. Place of publication: Publisher, Year, page number(s)** (if appropriate).

[5]The example uses IEEE type of referencing style

CHAPTER 8

Proposal & Final Report Submission Procedures

A. GENERAL INFORMATION

8.1 Proposal Submission

Completed and approved proposal endorsed by the Organisational Supervisor (Employer) should be submitted to the Report Supervisor (SMMTC). The final date to submit the proposal is on the 14th day that is **TWO (2) weeks** after the Industrial Training begins.

8.2 Final Report Submission

Student must submit a report draft within 1 month before the Industrial Training ends to be reviewed. The report should be complete and neat. The Report Supervisor will provide feedback by returning the reviewed report to the student. Students must correct the report based on the Report Supervisor's feedback. Students need to reprint the report and submit it to the Report Supervisor.

B. INFORMATION BY PROGRAMME

8.3 BACHELOR OF MEDIA TECHNOLOGY WITH HONOURS

8.3.1 Final Report Submission (Additional Info)

For B.Comm. (Hons), students must provide **ONE (1) hard copy of the final report** with **soft cover (color: light blue/*biru muda*) and a CD**. The **hard copy** of the report must be submitted to the Report Supervisor (SMMTC), and the **CD** to the Programme Coordinator of the School within **TWO (2) weeks** after the completion of the Industrial Training.
