CAREER PROSPECT

Graduates of this programme are highly sought-after considering that risk management has become an important aspect in all organizations worldwide. Career prospects as risk managers, claims investigator, loss prevention field representative, insurance analyst, insurance broker, underwriter, loss adjuster and executives are available for potential graduates in Government Linked Companies (GLCs), Multinational Companies (MNCs) and Public Listed Companies (PLCs).

OTHER CONTENT

The Bachelor of Risk Management and Insurance (with Honors) programme is aimed at producing graduates with the knowledge and skills necessary to succeed in the constantly evolving fields of risk management and insurance. The programme also prepares its graduates as Registered Financial Planners (RFP), where the graduates are eligible for up to a maximum of six exemptions, out of the seven modules under the RFP programme offered by the Malaysian Financial Planning Council (MFPC). The Bachelor of Risk Management and Insurance (with Honors) programme is industry-relevant and has good relationship with leading associations relevant to the risk management and insurance in Malaysia including Malaysian Association of Risk and Insurance Management (MARIM) and Malaysian Insurance Institute (MII).
